| 1              | 5                | 360            | 9               | 40.0             |
| 1              | 5                | 360            | 10              | 36.0             |
| 1              | 6                | 432            | 10              | 43.2             |
| 1              | 6                | 432            | 11              | 39.3             |
| 1              | 6                | 432            | 12              | 36.0             |
| 1              | 7                | 504            | 12              | 42.0             |
| 1              | 7                | 504            | 13              | 38.8             |
| 1              | 7                | 504            | 14              | 36.0             |
| 1              | 8                | 576            | 14              | 41.1             |
| 1              | 8                | 576            | 15              | 38.4             |
| 1              | 8                | 576            | 16              | 36.0             |
| 1              | 9                | 648            | 15              | 43.2             |
| 1              | 9                | 648            | 16              | 40.5             |
| 1              | 9                | 648            | 17              | 38.1             |
| 1              | 9                | 648            | 18              | 36.0             |
| 1              | 10               | 720            | 17              | 42.4             |
| 1              | 10               | 720            | 18              | 40.0             |
| 1              | 10               | 720            | 19              | 37.9             |
| 1              | 10               | 720            | 20              | 36.0             |

**Note:** While the scheduling tables are limited to 8-10 people per shift, you can use them to schedule any number of people. Just find a template that you like and use it multiple times to schedule your people.

For example, if you need to schedule 100 people you can use a template that requires 5 people, 10 people, 20 people, etc. Simply divide the 100 by 5 or 10 or 20 to find out the number of times you need to reproduce the template to schedule all of your 100 people.

If you decide to use one of the Series 3 Template Schedulers for your scheduling, you can copy the template into the Template Scheduler just one time and then assign several people to each of the schedule legs.
